

Dr. Javier Herrero Jover

Cirugía plástica y reparadora

Dr. Javier Herrero Jover

- **Leading specialist of the Medical Center Teknon in the field of plastic surgery**
- **Work experience:** 35 years, 20 years in the Teknon clinic.
- **Director of Alma IT Systems**
developing of visualization methods in the field of plastic surgery.

Dr. Javier Herrero Jover graduated from the Medical University of Barcelona in 1980. Received specialization in plastic and reconstructive surgery in 1985, at Clínica Fluminense de Río de Janeiro (Brazil).

Dr. Herrero was a specialist in plastic surgery at the Hospital Universitari de Catalunya.

Dr. Herrero founded Alma IT Systems, a software development company for medical imaging. Alma 3D's patented technology allows to create accurate reconstruction of the patient's anatomy, based on CT scans.

This method helps to achieve maximum accuracy of the operation.

Dr. Herrero currently leads the Teknon Plastic Surgery Unit.

- Member of the Spanish Society of Aesthetic Medicine (SECPRE)
- Member of the Brazilian Plastic Surgery Society (SBCP)
- Member of the International Society for Computer Aided Surgery (ISCAS)

Specialization:

- **Corporal aesthetic surgery:** breast augmentation and breast-lifting, liposuction, abdominoplasty, lipofilling, post-bariatric plastic surgery, brachioplasty, intimate plastic surgery, etc.
- **Face aesthetic surgery:** blepharoplasty, face-lifting, rhinoplasty, otoplasty, botox therapy, plasmalifting, etc.
